

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. New material is indicated by an underline, deleted material is indicated by a ~~striketrough~~.

In the Claims:

1. (Currently amended) A method of treating rejection of a corneal transplant in a mammal, said method comprising administering to an eye of said mammal having said transplant a composition consisting essentially of ~~comprising~~ an antibody to tumor necrosis factor alpha.
2. (Original) The method of claim 1, wherein said composition is administered topically to said eye.
3. (Original) The method of claim 1, wherein said mammal is a human.
4. (Original) The method of claim 1, wherein said antibody is a polyclonal antibody.
5. (Original) The method of claim 1, wherein said antibody is a monoclonal antibody.
6. (Original) The method of claim 1, wherein said antibody is a humanized antibody.
7. (Original) The method of claim 1, wherein said antibody is a biologically active fragment of an antibody to tumor necrosis factor alpha.
8. (Original) The method of claim 1, wherein said antibody is a heavy chain antibody.

9. (Currently amended) The method ~~heavy chain antibody~~ of claim 8, wherein said heavy chain antibody is selected from the group consisting of a camelid antibody, a heavy chain disease antibody, and a variable heavy chain immunoglobulin.

10. (Original) The method of claim 1, wherein said composition is suspended in a pharmaceutically acceptable carrier.

11-20. (Canceled)
